

- ✓ No sewage back-flow
- ✓ No access for vermin
- ✓ Intergrated lever locking access cap
- ✓ Full bore opening capacity
- ✓ Plastic stainless steel reinforced double seal flap
- ✓ Compact size for easy insertion into chamber

DEK-DRAIN NRV

Non-Return Valve

The new Dek-Drain non-return valve effectively seals your underground pipe work from a back flow of storm water, rodents and smells.

110mm & 160mm NRV's are available for next day delivery.

NRV-110 (Non-Return Valve 110mm)
NRV-160 (Non-Return Valve 160mm)

CE EN13564-1:2004

*Next day delivery to UK mainland, excludes Scottish Highlands. Orders before 12.30pm only.

DEK-DRAIN Flap Valve

The flap valves from Dek-Drain are devices protecting rooms on the lower levels against flooding caused by backward flow of storm water and sewage. Flap valves also effectively protect plumbing systems from rats entering the buildings.

110mm & 160mm Flap Valves are available for next day delivery.
